

**AMENDMENTS TO THE SPECIFICATION:**

On page 6, please amend the paragraph beginning on line 16 and ending on line 21 to read as follows:

The opening 5 does not necessarily have to be provided in the region of the printed circuit board 8. It is also conceivable to mount the component 4 in the vicinity of one end of the fixed portion 1 or 3. In this case, the opening may be provided in the flexible layer arrangement 2. The contacting link ~~4~~ is 12 is, in this case, routed from the component 4 mounted on the fixed portion to the opening 5, which is provided in the flexible layer arrangement 2 in the vicinity of the fixed portion 1 or 3.
